Montage

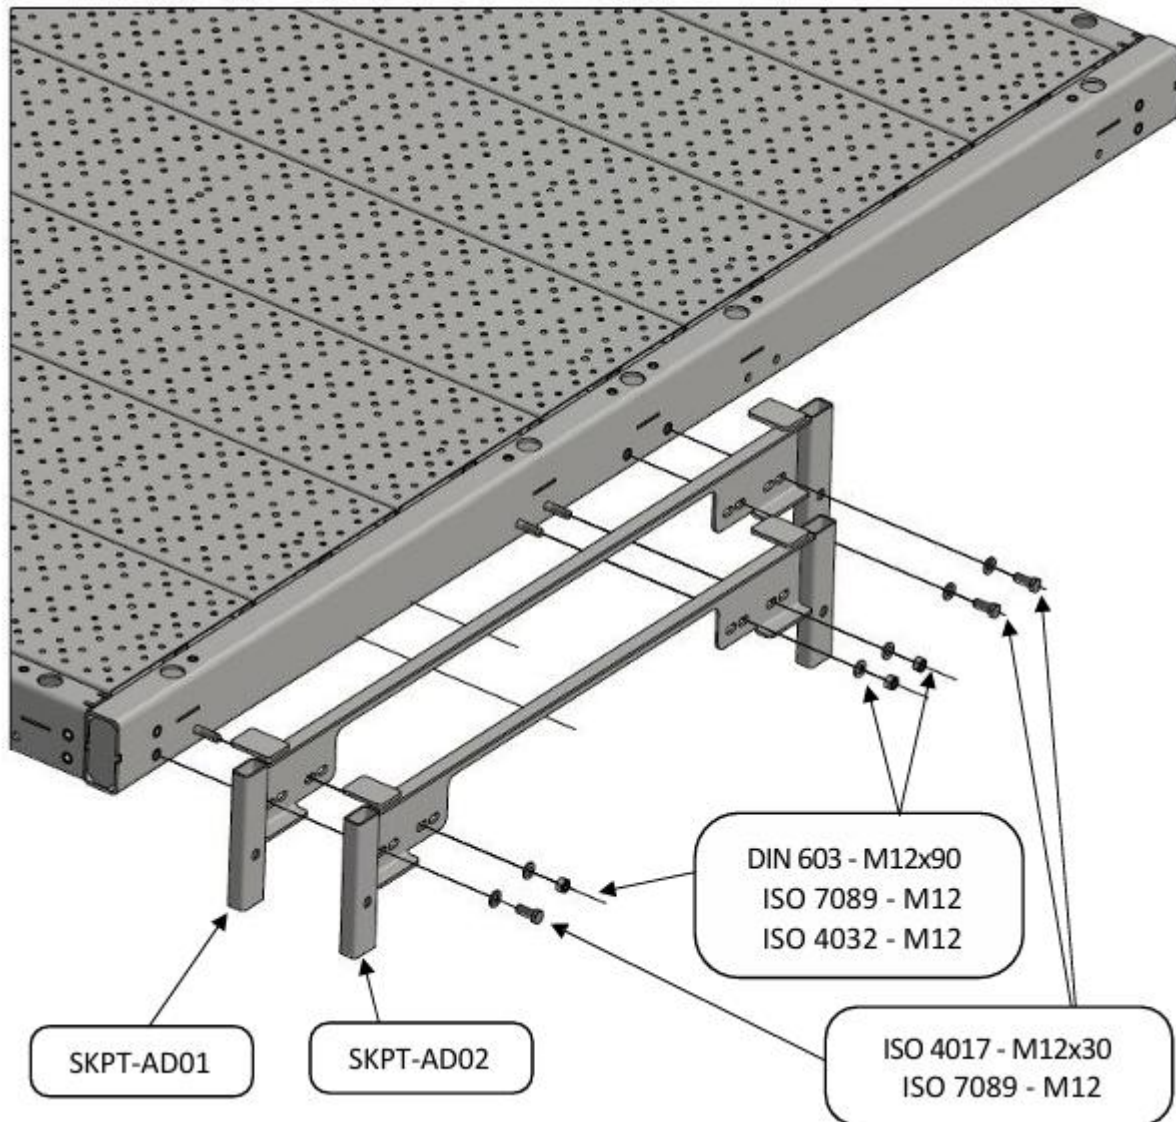

Terras korte zijde: De bevestigingen worden aangebracht afhankelijk van de gekozen configuratie. Op de afbeelding staan de onderlinge afstanden voor de SKPT-L3 connectors en de benodigde bevestigingsmiddelen. Deze dienen gemonteerd te worden voordat de vloerdelen op de container worden geplaatst.

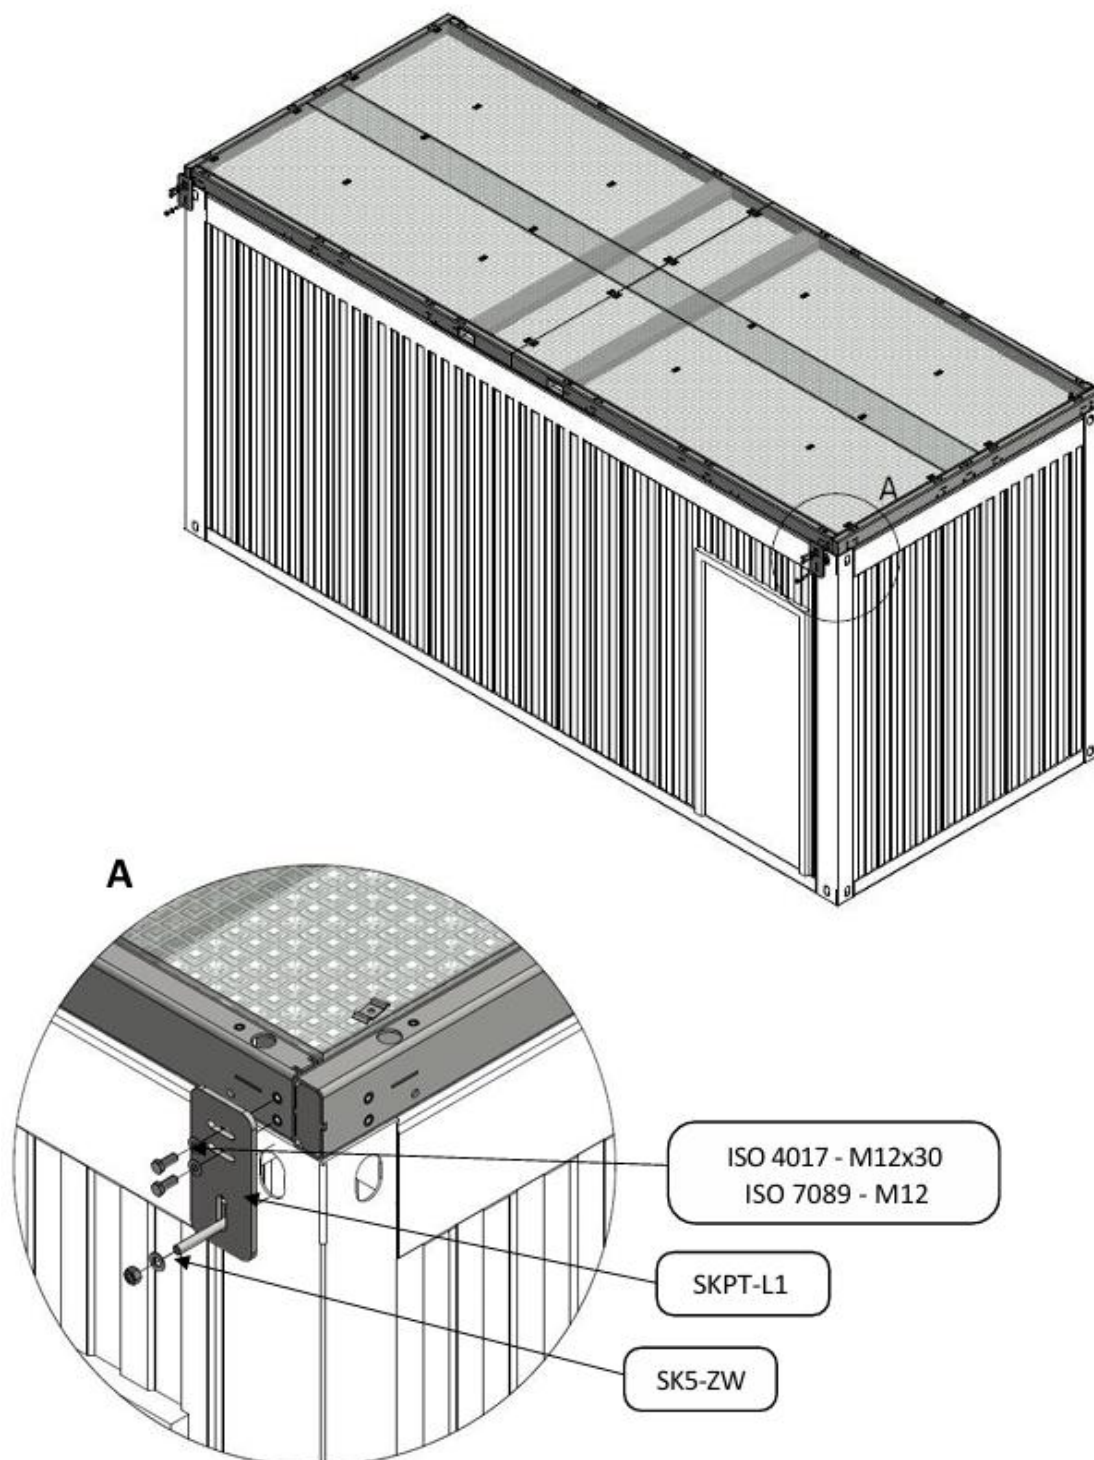

Terras lange zijde:

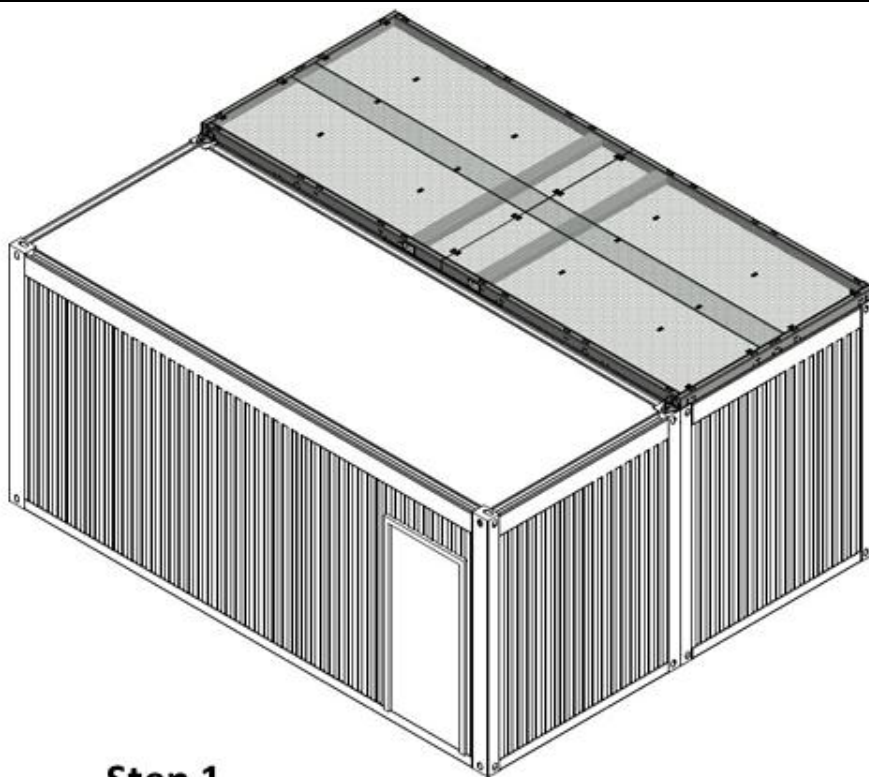

De adapters AD01 & AD02 en de L3 connectors dienen te worden gemonteerd voordat het terras op de container wordt geplaatst.

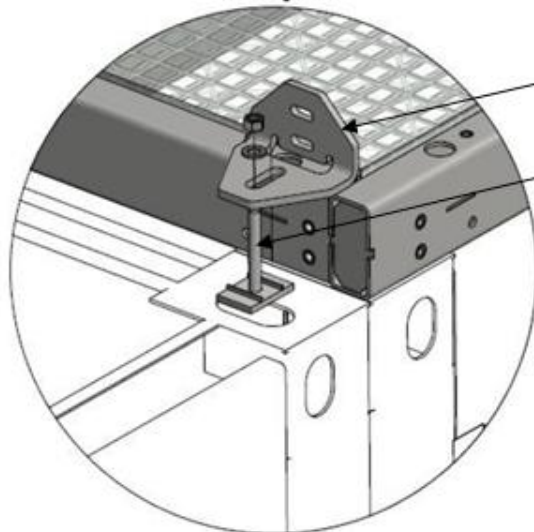

Plaatsen van het terras op de container: gebruik hiervoor een hijsmiddel met een vorkhefcapaciteit van meer dan 1 ton. Gebruik voor montage de SKPT-L1 connector.

Gebruik de SKPT-L2 connector.
